

Experience

With his presentation style, his rhetoric and impressive examples from more than 20 years IT experience Dirk-Achim Tellbach contrives to present even complex technology and scientific context simply and intelligible to all.

With his ability to reach the audience he succeeds in an informative, entertaining and unique way to combine nuts-and-bolts content with motivating elements.

Career

Dirk-Achim Tellbach, born in 1961, graduated with a diploma in computer science (“**Diplom-Informatiker**”; equates the US degree for Master of Computer Science) with distinction at the University in Erlangen.

As site manager and start-up engineer for Siemens he gain experience in planning and implementation of control technology. In his functions as project manager plus key account manager at Metromedia Group he contributed significantly to the development of one of the highest-performing European data centers as well as the development of important data connections such as the one for the University of Frankfurt.

Cooperation with medium size and international DAX companies from Europe, USA and Asia as e.g. Deutsche Bank AG and DWS, Deutsche Telekom AG, Software AG, Microsoft and A dBrite have contributed to his reputation as business expert for consequent ready to use solutions.

University Teaching Position

In context with his employment as scientific assistant with the chair for operating systems Mr. Tellbach was **tutor at the Friedrich-Alexander-University** in Erlangen. He e.g. lectured “Grundzuege der Informatik” (= basics of computer science).

Publications

Dirk-Achim Tellbach is **author of several publications**. Whitepapers as e.g. „Anforderungen an ein modernes Internet-Rechenzentrum“ (= specifications for a modern Internet data center) inter alia were planning fundament for data center developments. Within the scope of his presentation activities further product-independent and generally accepted publications evolved as e.g. “IP Connectivity” or „Die Geschichte des Internets“ (= history of the Internet) in which IT basics and history are described such that also someone without technical background understands it. Further presentation examples you find online under the following link:

Presentation Treat

Since the beginning of 2007 Mr. Tellbach offers his consultancy experience in the name of wusys. He speaks German, English, Hungarian and Spanish. On request he acts as speaker in German and/or English language at staff or customer presentations, conventions, events or conferences as e.g. recently during the Synergy Symposium at Schloss Vollrads under the patronage of Roland Koch, the Minister-President of Hessen, („SaaS als Chance für den Mittelstand“ = SaaS as a chance for medium-sized businesses).

Dipl.-Inf. Dirk-Achim Tellbach

joined the beginning of commercially used IT and Internet and in the beginning of 1988 - already 6 years before automatic Internet routing - sent one of the early emails from Europe to the USA.
